

# Bank applies to move Westport branch to nursery site

By Alexander Soule

Stamford-based First County Bank filed for state permission to move its Westport branch a short distance on Post Road East to the site of a former garden center that relocated last year to New Canaan.

First County's existing branch at 1260 Post Road East had \$50 million in deposits as of June 2015, almost 5 percent of the total deposits registered to all bank offices in town, according to the Federal Deposit Insurance Corp.

First County's prospective new location at 1135 Post Road East is being redeveloped for a mix of residential and commercial use, having previously been the site of Geiger's Garden Center, which last year relocated to Frogtown Road just over the Stamford border in New Canaan.
