

Comings & Goings: First County Bank to New Home

First County Bank will move into a new commercial/residential development under construction at 1135 Post Road East, at the intersection of Morningside Drive North, according to Coastal Construction co-owner Joe Feinleib. He said the bank, currently at 1260 Post Road East, at the intersection of Turkey Hill Road South, will relocate to the first floor of the building facing Post Road East next spring. The middle building of the three-building complex will house a wellness spa, while 12 residential units, including two affordable, will occupy the third building. The style will be consistent with that of the barn that occupied a space at the former Geiger Garden Center. “All three will have a residential feel with natural stone front and wood siding,” Feinleib said *Dave Matlow for WestportNow.com*
